EDUCATION

Thakur College of Engineering and Technology

Bachelor of Engineering (Electronics & Telecommunications) - CGPA: 8.24

2023-present

Mumbai, India

I.D.U.B.S. Junior College

Higher Secondary Certificate - 72.00%

2021-2023

Maharashtra, India

PROJECTS

ArchiAI | React.js, TypeScript, Tailwind CSS, Google Gemini API, Puter.js

- Engineered a Generative AI-powered architectural visualization platform that converts 2D floor plans into interactive 3D designs in real time leveraging Puter's cloud infrastructure for authentication, storage, hosting, and project management.
- Implemented intelligent layout recognition, real-time AI rendering, and interactive before/after comparisons to streamline architectural visualization workflows.
- Engineered a responsive user experience with drag-and-drop uploads, cloud-synced project history, and secure export functionality for seamless design management.
- Live website link: <https://archi-ai-nine.vercel.app/>

SpendSense | React.js, TailwindCSS, Node.js, Express.js, MongoDB, Zustand, React Query, Vitest

- Built a full-stack MERN-based personal finance platform with expense tracking, budgeting, net worth monitoring, and PWA support, achieving sub-second dashboard load times.
- Integrated Groq LLMs and Tesseract.js OCR to power an AI financial assistant and receipt scanner, reducing manual expense entry by 80%.
- Developed features including Financial Health Scoring, expense splitting, multi-currency support, and AI-driven savings insights. Implemented automated testing and CI/CD pipelines using Jest, Vitest, and GitHub Actions to ensure reliable financial calculations and deployments.
- Live Website Link: <https://spendsense-ten.vercel.app/>

CareKaro | React.js, TypeScript, Supabase, TailwindCSS, ShadCN

- Developed CareKaro, an AI-powered personal health management platform enabling users to upload medical reports, receive automated health insights, track health metrics over time, and securely share records with doctors and family members featuring role-based dashboards for patients, doctors, and administrators with secure authentication and access control.
- Implemented medical report analysis, health trend visualization, specialist recommendations, and 20+ health assessment tools, helping users better understand and manage their health data.
- Live website link: <https://care-karo-nine.vercel.app/>

EXPERIENCE

CodTech IT Solutions

11 2024 – 01 2025

React.js Developer Intern

Mumbai, India

- Developed and optimized reusable React components, implemented state management, and integrated REST APIs to deliver dynamic user experiences.
- Collaborated on project development, debugging, and performance optimization while following industry-standard coding practices and version control workflows.

BharatWatch

10 2025 - 12 2025

Technical Lead

Mumbai, India

- Served as the first Technical Lead and founding engineering team member at BharatWatch, leading a team of 3–4 developers in building a scalable video-streaming platform using the MERN stack.
- Architected and developed core platform features, including video upload, streaming, user authentication, content management, and backend APIs, ensuring performance and scalability.
- Led technical planning, code reviews, and team coordination, driving product development from initial concept to production-ready releases.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, NoSQL

Developer Tools: VS Code, Git, GitHub, Postman, Chrome DevTools, MySQL Workbench, Figma

Technologies/Frameworks: React.js, Node.js, Express.js, Puter.js, Tailwind CSS, MySQL, MongoDB, Zustand, React Query, Vitest, Github Actions

CERTIFICATIONS

- Postman API Fundamentals Student Expert - Postman
- Software Engineering Job Simulation - JPMorgan Chase & Co.
